

DIGITALLI INFOGRAPHIC – 2

TRANSFORM YOUR INSTITUTION
WITH DIGITALLI

Digital Transformation Expert System (DTES) for Lifelong Learning

01 About DTES

The DIGITALLI Digital Transformation Expert System is an online application designed to support lifelong learning institutions in planning, managing, and implementing digital transformation.

DTES provides:

step-by-step guidance, practical tools, self-assessment activities, AI-supported recommendations, and structured action planning

DTES helps:

organisations move from digital uncertainty to confident, strategic transformation.

04 How DTES works

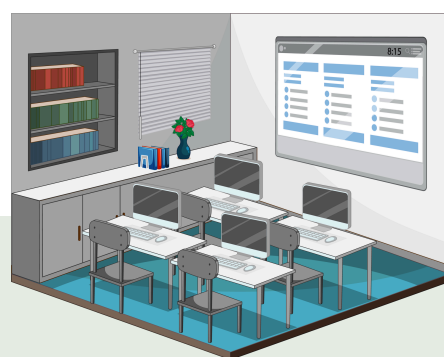

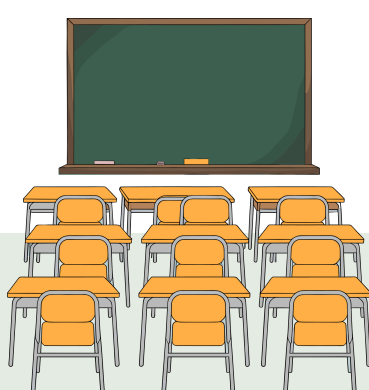

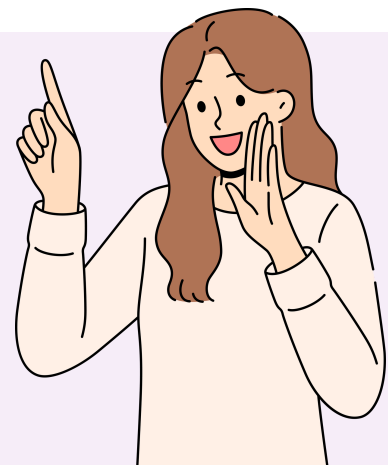

- **Start with the Quiz:** Take the DIGITALLI digital transformation quiz to identify your organisation's current digital readiness and needs.
- **Receive Personalised Guidance:** Based on your results, the system generates tailored recommendations and learning pathways.
- **Build Your Action Plan:** Develop a realistic digital transformation roadmap with clear priorities, actions, and goals.
- **Implement & Improve:** Track progress, reflect on development, and continuously improve digital teaching, learning, assessment, and inclusion practices.

DTES Key Features

- **AI-Supported Guidance:** Receive intelligent recommendations and practical support throughout your transformation journey.
- **Self-Assessment Tools:** Evaluate digital readiness, competences, and organisational needs.
- **Action Planning:** Create structured and achievable digital transformation plans.
- **Adult Education Focus:** Designed specifically for lifelong learning and adult education providers.
- **Inclusive & Ethical:** Supports accessibility, learner diversity, and responsible AI integration.

06 Why use DTES

- ✓ Improve digital teaching and learning
- ✓ Strengthen educator competences
- ✓ Support innovation and inclusion
- ✓ Enhance assessment practices
- ✓ Build organisational digital capacity
- ✓ Create sustainable transformation strategies
